FINANCIAL AND COMMERCIAL. MORRY MARKET.

Tummar, April 29-6 P. M.

The stock market was unsettled this morning at the first board. With sales unusually large, lower prices were realized. New York Central Railroad fell off & percent: Reading. C. Hudgen, Phys. Lett. 10 (1997) cent; Reading, %; Hudson River, %; Michigan Central, %; Michigan Scuthern, %; Cleveland and Toledo, %. Indians 5's advanced % per cent; Illinois Central bonds, %; Delaware and Hudson, %; Erie, %; Harlem, %. Illinois Central bonds sold largely. The sales sum up more than \$100,000, opening at 88 and clesing at 88 % per cent. The stock was quite active and sold above par, buyer thirty days. The earnings this month will be full \$190,000, against \$113,000 for the same month last year. Erie was in demand, but prices were not sustained. The movement in New York Central has lost its force. The stock was heavy to-day at 93% a 93% per cent Reading Railread fell off under the uniavorable accounts from the coal region. Cleve.and and Pittsburg was well maintained, and closed firm. Wisconsiz Like Shore was in demand. The earnings are already in cash. This is one of the few finished roads of the West. It is entirely completed. Its construction acis so much more in the pockets of the stockholders. Ga-lens and Chicago has been gradually setting down for some cays past. It closed this morning weak, at 114 per cent, with larger sales than usual. After the adjournment of the board the following sales

of stocks and bonds were made at auction by Simeon Dra-

ant. There was no decline of consequence in any stock, beriand, %; Galena and Chicago, %; Panama, %—caused by the serious riot at Panama; New York Central Rail-

road, A.

The steamship Africa, from this port for Liverpool tomorrow—Wednesday—will take out about one million of
dollars in specie, principally gold coin. The steamer
from this port on Saturday will also take a large amount. The aggregate shipment from this port this week will not be much less than one and a half million of dollars.

The coupons of the first mortgage bonds and of the bonds of 1867 of the Harlem Railroad Company, due on the 1st of May, will be paid at the Treasurer's office, No. 33 Pine street, on and after that date.

An election for thirteen directors of the Harlem Railroad Company will be held on Tuesday, the 20th of May, at the office, No. 33 Pine street, rear building. The transfer books will close on the 10th of May, at 2?. M,

and open on the 21st of May.

At the annual election for directors of the Michigan Southern Railread Company, held at Adrian, Michigan, on the 23d inst., the old Board were unanimously re-

Washingt:n, on the 26th inst., were as follows:-For the Treasury Department. \$111.867 13

For the Interior Department. 18 339 42

The circular of Maure In Connect to for

The circular of Mesers. De Coppet & Co., prepared for ransmission to Europe by the steamship Africa, gives

week:—
State stocks have been generally very quiet, excepting Virginia 6's, which have declined ½ per cent, and more particular. Whissouri 6's, in which large transactions have taken place at a fractional advance. In other Sate stocks business has been very limited.

In city bonds, the business is very light, the demand being only for small amounts.

In county bonds there have been some purchases of St. Louis 6's, Bath (Kontucky) 6's, Desmoines (lows) 8's, and Henry (lows) 18 per cent, the latter of which have but recently been introduced in our market.

In railroad bonds considerable transactions have taken place in Blinois Central Construction 7's at well maintained rates. Business has been moderate in Eric second mortgage, in Eric 7's 1871-75, and also in Hudson river third mortgage, without material variations in rates.

We notice some business in New York Central 6's and 7's, the latter at a rise of 1 per cent. The "subscription" bonds of the company remain without inquiry. At private sale there have been sales of Milwaukie and Missispipi, 3d section, at some reduction in rates; otherwise there has been but little doing.

Railroad Stocks—The speculative movement in Clevelard and Toledo has continued on a large scale, closing with a decline of 3½ per cent on our last quotations. There has been some animation in Eric, New York Central and Ceveland and Fittaburg, the latter especially, at a considerable ruse. Reading was quite as ive; to a sudden rise succeeded an equally abrupt deel ne. A reduction in the freight of ceal occasioned the depression. Hilmots Central was in good demand and rose to par.

Mency, which was a little easier during the three or four first days of the week, is again in good demand at 7 per cent for loans on call; busicess paper from 8 a 10 per cent.

brings one week later intelligence from all parts Europe. She brings dates to the 19th inst., inclusive, from London. Ne change is reported in quotations for is. The money market continued stringent, and the rate of interest without alteration. A relaxation in discount rates is looked for at no distant day. The prospect of large arrivals of specie affords a good deal of hope for future case and abundance in money matters. The last returns of the Back of England show an increase in the amount of buliton of £42,562. In relation to Ameri-can securities, Satterthwaite's circular says:—

the amount of bullion of £42,562. In relation to American securities, Satterthwaite's circular says:

We have had a quiet market in American securities in London during the past week. We note, however, transactions to some extent in Illinois Central Free Land bonds, at advanced rates. The Cons'rue ion bonds are sellers at the price of 80, with a sia k inquiry. The shares have been done at 2 and 3% discount, and are sellers at 3% at the close. There is a fair inquiry for Pennsylvanis Central bonds, at a slight advance; Michigan Central, 1860, have brought 91 and 92; and 1869 bonds, 93, interest included for small amounts; New York Central seven per cents have been done at 94% and 93 in limited amounts, with very little inquiry; Eris Third Mortgage, in small lots, have brought 94% and 95; Sinking Fund bonds are free sellers at 92%, with no demand. We understand the holders of bonds of the Ohio and Mississippi have consented to the arrangement for founding 5 coupons into 2d Mortgage B.a.ds, and it is hoped that this may facilitate the completion of the road. The non-payment of the interest on the Chicago and Mississippi (some of the bonds of which road were negotiated here) has an unfavorable influence as regards the introduction of the bonds of unfinished roads. Some of the bonds of the Hannibal and St. Joseph's have found their way here, but we have not heard of any sales. Canadian securities are in strong demand for money, here and elsewhere, at high rates.

The cotton market is quoted firm. An advance had

The cotton market is quoted firm. An advance had been realized, but it could not be sustained. From the manufacturing districts the accounts are favorable. In breadstuffs there was considerable depression. All the leading articles had (colined, and the demand was only moderate for consumption. A further reduction in mar-ket value of some importance was looked for. Cheap food will give a greater impetus to all branches of industry, and the impression appeared to be general in the public mind on the other side that a period of prosperity was near at hand equal to anything that had been known for many sears. It will take some little time to get matters settled down once more upon a substantial peace basis, and recover from the derang-most caused by the war, but as soon as a proper order of things is sgain a ac-

lished, we shall see a more rapid progress in all the elements of individual prosperity and national wealth than ever before known. All the continental nations of harope contemplate the adoption of a most extensive system of internal improvements. Railroads will, in less than ten years, panetrate the remotest sections of Rerats, and there works will stretch across the continent of Europe, as they do across this country, forming a perfect network, opening all parts and developing the rasources of all. This is the new peace programme of Napoleon and Alexander, and the trace of the continent will hereafter be carried on more independent of Great Britain than in times past.
